

Brain Breaks: Wink Murder

Equipment

- Classroom
- Whole Class

Rules

1. Students sit in a circle. One goes outside and is nominated 'The Detective'.
2. The teacher silently selects a 'Wink Murderer' from the seated students.
3. When the detective is invited back inside, they must stand in the centre of the circle (this is so that their back is always facing a portion of the class).
4. The wink murderer will surreptitiously wink at fellow students who will "die" (slump or dramatically making 1 sound effect).
5. The detective may have 3 guesses in 90seconds.
6. I encourage the detective to turn around the circle and I encourage the wink murderer to wink quite a few times to give each of them a sporting chance.
7. Once the murdered is either revealed or detected, they become the detective and the process can re-play itself.
