

Brain Breaks: Coloured Corners

Equipment

- Classroom
- Coloured spinner (online or actual)

Rules

1. Begin by nominating a colour to each corner of the classroom. Ask students to stand in their preferred corner.
2. Spin the spinner.
3. Whichever colour is selected, those students are out.
4. Before each spin give students 5 seconds to choose a new corner or remain where they are.
5. Repeat process until only ≤ 4 students remain.
6. Each student must select a separate corner alone from now on. No two students can stand in the same corner.
7. If two students are left standing, you can speed things up by nominating a side (2 colours) that will be out.
